

Git bisect

A partir daí, o git vai te mover na timeline de commits, buscando o commit assassino!

The image shows a terminal window titled "NSBrazil 2019" with a dark background. The terminal output is as follows:

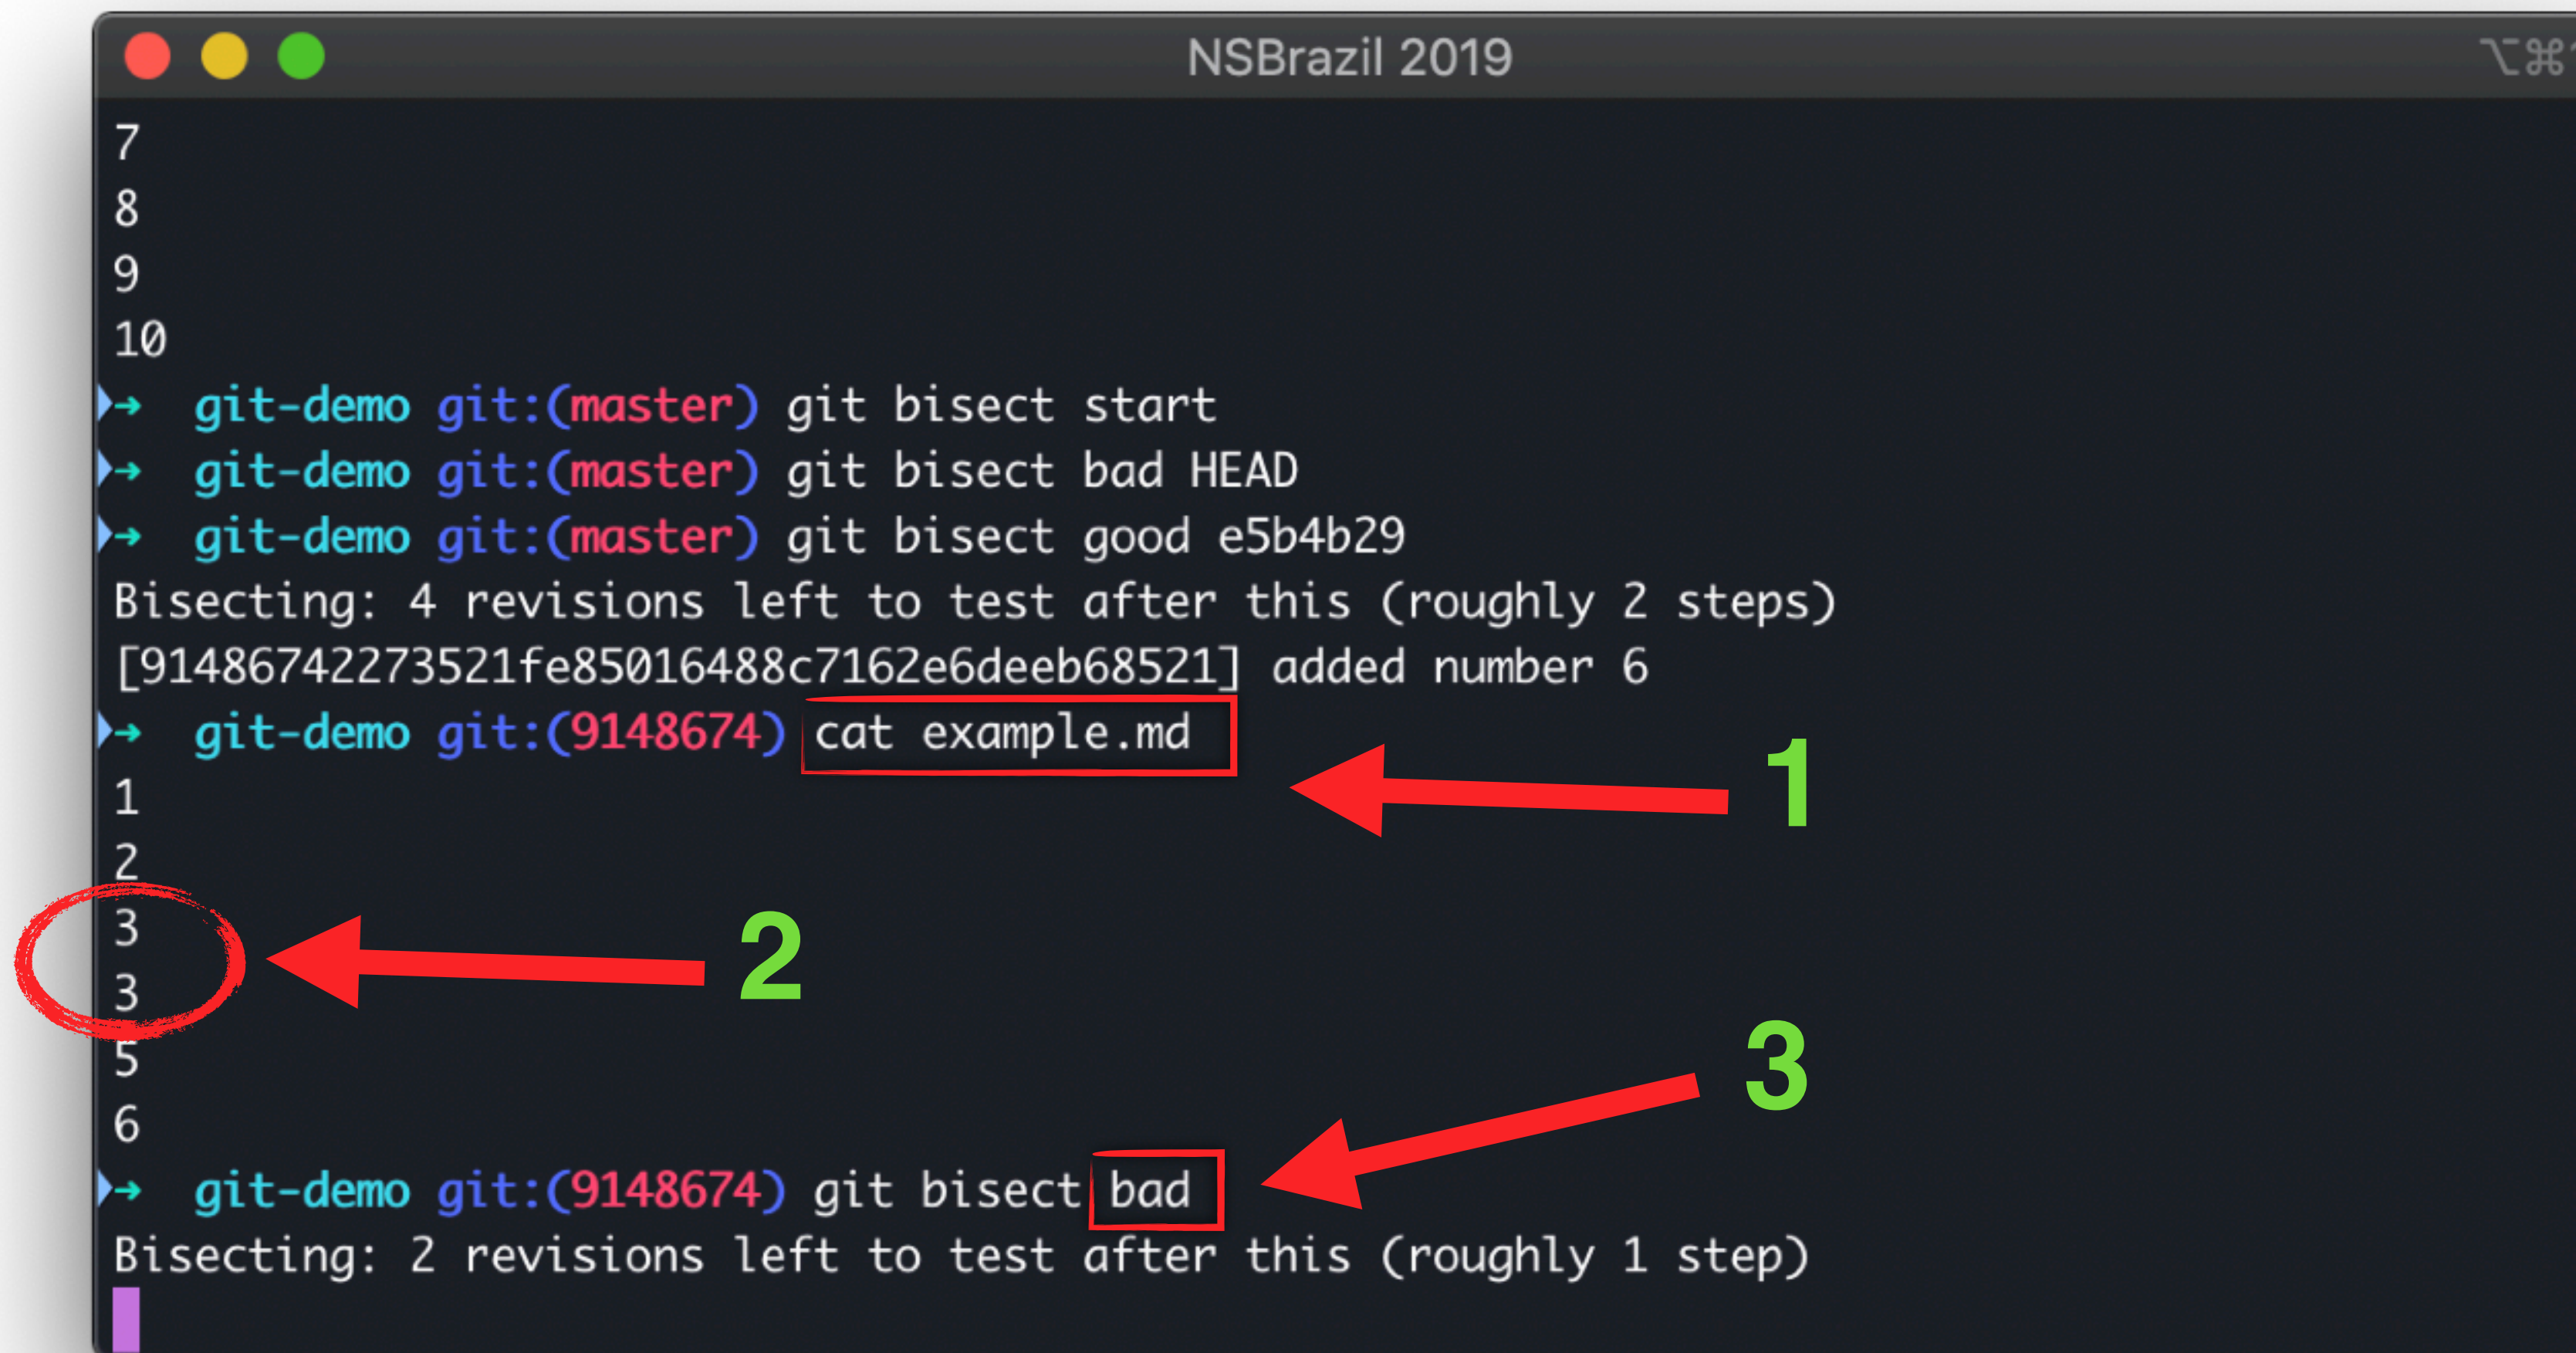

```
5  
6  
7  
8  
9  
10  
➤ git-demo git:(master) git bisect start  
➤ git-demo git:(master) git bisect bad HEAD  
➤ git-demo git:(master) git bisect good e5b4b29  
Bisecting: 4 revisions left to test after this (roughly 2 steps)  
[91486742273521fe85016488c7162e6deeb68521] added number 6  
➤ git-demo git:(9148674) cat example.md  
1  
2  
3  
3  
5  
6  
➤ git-demo git:(9148674) |
```

Annotations on the terminal output:

- A green text annotation "Estimativa de quantos passos ainda restam para encontrar o bug" (Estimate of how many steps remain to find the bug) points to the text "(roughly 2 steps)" in the terminal output. The number "2" is highlighted with a red box.
- A red circle highlights the number "3" on line 3 of the terminal output.
- A green text annotation "Teste o código e verifique se o erro está presente nesse commit. Nesse caso, ainda sim 🤔" (Test the code and check if the error is present in this commit. In this case, still yes 🤔) points to the "3" in the circle.

Git bisect

Testamos o commit (1) verificamos que o erro existe (2), marcamos esse passo como **bad** (3).

```
7
8
9
10
git-demo git:(master) git bisect start
git-demo git:(master) git bisect bad HEAD
git-demo git:(master) git bisect good e5b4b29
Bisecting: 4 revisions left to test after this (roughly 2 steps)
[91486742273521fe85016488c7162e6deeb68521] added number 6
git-demo git:(9148674) cat example.md
1
2
3
3
5
6
git-demo git:(9148674) git bisect bad
Bisecting: 2 revisions left to test after this (roughly 1 step)
```

The terminal window shows the execution of the `git bisect` command. The first three lines are the initial setup. The fourth line shows the current commit being tested. The fifth line shows the output of the `cat example.md` command. The sixth line shows the output of the `git bisect bad` command. The seventh line shows the output of the `git bisect` command. Annotations 1, 2, and 3 are used to highlight specific steps in the process.

1 points to the command `cat example.md`.

2 points to the output of the `cat example.md` command, which is `3`.

3 points to the command `git bisect bad`.
